ERRATUM

Adopted: March 11, 2004 Released: March 12, 2004

By the Chief, Office of Engineering and Technology:

- 1. On February 12, 2004, the Commission released a *Report and Order*, FCC 04-20, in the above captioned proceeding. This erratum corrects the following minor errors:
- (1) In Paragraph 23, the second and third sentences are replaced with the following text: In the 70/80/90 GHz Report and Order, we have recently removed footnote US377 from our Rules. In order to implement the WRC-2000 realignment, seven of the remaining eight United States footnotes must also be removed from our Rules. However, upon further review, we decline to remove footnote US370 at this time because it is not within the frequency range at issue in this proceeding. Accordingly, we are removing footnotes US369, US371, US372, US373, US374, US375, US376, and US377 from Section 2.106 of our Rules.
- (2) In Section 2.106 of Appendix A, amendatory instruction 2.c is revised to remove footnote US370; footnote US74 is revised by adding a comma after "MHz" and by adding the word "the" before "technical standards;" footnote US246 is revised by adding the band 73-74.6 MHz in numeric order; and footnote US342 is revised by removing the band 1660-1670 MHz and by adding the bands 1660-1660.5 MHz, 1668.4-1670 MHz, 4950-4990 MHz, and 6650-6675.2 MHz in numeric order.
- 2. Accordingly, IT IS ORDERED that this Erratum is issued pursuant to Section 0.241 of the Commission's rules on delegated authority, 47 C.F.R. § 0.241.
